EXPERIENCE

Role Name : Software Developer
Company Name : CopterCode

(1 month) July 2025 - Aug 2025
Chennai, Tamilnadu

- Created a Student management System fullstack project which enables user to create, read, edit and delete the student details.
- Backend using nodejs and express js which connect the mongodb atlas for database.

PROJECTS

Student Management Site. Developed a comprehensive student management site leveraging ReactJS, NodeJS, ExpressJS, and MongoDB Atlas. The application supports complete CRUD (Create, Read, Update, Delete) operations, enabling seamless management of student records.

- Provides intuitive interfaces for adding, editing, viewing, and deleting student data.
- Secure RESTful backend ensures data integrity and efficient queries.
- Utilizes cloud-based MongoDB Atlas for scalable and reliable storage.
- Enables educators and administrators to track academic progress, manage student profiles, and optimize administrative workflows.
- Designed for responsiveness and speed, delivering a user experience on par with leading education management solutions.
